

Performance Driven By Learning

Don't Reinvent—Redesign

Existing training curriculums are sunk costs. Don't let your ideas sink too.

Reinventing causes loss of the old investment. Redesigning brings the new to the old!

Curriculums are created and live on, but at times they need to be **updated** to address learning gaps, new business needs, and outdated or redundant content.

Is your curriculum taking too much time or becoming too expensive to deliver?

Fix it with Indecomm Learning's Engagement Framework—A four-step engagement model that uses a building block approach to help you redesign your curriculum.

- Improve retention & on-the-job performance**
- Reduce time spent in classrooms**
- Shorten time-to-market & time-to-competency**
- Lower total cost of training delivery**

Contact: bdsupport@indecimm.net for a free workshop

Indecomm Learning's Engagement Framework provides:

- Analysis of existing curriculum and related key findings
- High-level solution that defines training strategy, instructional design approach, and deployment and maintenance options
- Roadmap for implementation of the proposed solution
- Cost estimates for the proposed solution, including cost of design, development, and deployment
- Key success factors for the effective implementation of the proposed solution

Your P & L benefits from:

- Reduced training delivery costs
- Greater operational efficiencies
- Better performance impact
- Shortened time to competence

About Indecomm Learning

For over a decade, Indecomm Learning has partnered with businesses and governments across the globe to provide effective learning solutions. We identify the best solution for our clients through consultative engagement and have a track record of over 30,000 hours of learning content design, development, and deployment. Through our solutions, we strive to enhance the performance of an individual and the organization. Our work has been widely recognized by the 2013 Asian Quality Leadership Award and two Brandon Hall Excellence Awards, as well as by TrainingIndustry.com.
